

DETAILED ACTION

Response to Amendment

1. The Examiner acknowledges Applicant's submission on 6/7/11, in view of the decision from the pre-appeal conference, prosecution has been re-opened. Claims 1-20 are allowed.

Allowable Subject Matter

2. Claims 1-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: With respect to independent claims 1, 14, 15 and 17-19, Helfman discloses a message notification means which stores status information associated with a message. The status information of Helfman discloses messages that are new and for which a notification has not been cleared. Prior art combinations do not disclose that the messages are new but has an associated notification that has been cleared. Furthermore, the claims disclose that a user interface is provided to a user of the list of notification associated with only those messages determined to be new and for which a notification has not been cleared. The combination of these above features along with the features disclosed in the independent claims make the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Since claims 2-13, 16 and 20 depend on claims 1 and 15 and include all of the limitations of these claims, claims 2-13, 16 and 20 are considered allowable for the reasons in which claims 1 and 15 is allowable.
